**Subject:** Changeover to New Purchasing System

This is a reminder that on April 29<sup>th</sup> at noon access to the purchasing system that you have all been using over the past several years will be cancelled. On Monday morning you will need to start using the new purchasing system. Attached is an updated link to the new purchasing system, please do not start using it until Monday morning because this is a live system and we are in the process of doing the final setup.
